

TYPES OF CLOUDS MATCHING CARDS (REAL PHOTOGRAPHS)

www.TheWiseNest.com

Picture cards with real photographs to help your child identify the different types of clouds.

You can play a simple matching game lining up the picture cards and asking your child to match the words next to each picture. To make more exciting, time your child and see how many seconds it takes him to match the cards correctly. After your child recognizes all the clouds easily, you can play memory by turning all the cards face down and taking turns to find matching pictures and words.

Another option would be combining these cards with the additional set found on our website, which has the types of clouds illustrated in a drawing format. Mix and match the cards from both sets.
