

TYPES OF CLOUDS

www.TheWiseNest.com

This worksheet has a graphic that shows all the different types of clouds.

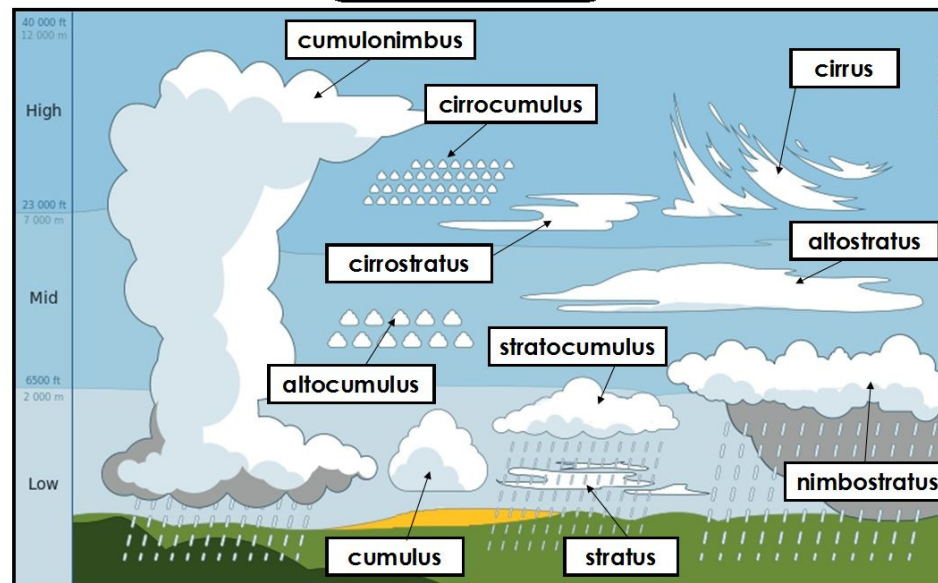

On the first page I included the graphic without any labels or lines on it in case you want to print it and have it as a visual.

The second page has the lines for older students to label the types of clouds by hand.

The third page has the boxes for younger students to cut and paste the labels found on the last page. Have fun learning about the clouds! :)
